

## Creating Your Budget

Insignia Kitchen and Bath will work extensively with you on your project regarding budget, wish lists, and prioritizing. Together we can establish a working budget that accommodates your needs and desires.

First Consider:

1. Why are you remodeling? To change a look? To change a function so as to accommodate a changing lifestyle (for instance, are your elderly parents moving in)? To spruce up the house so that you can sell it?
2. What is your spending limit?
3. Create your “wish list.” Include every dream you have for your new room – then, start to prioritize.

Our designers are educated and experienced with budgets. We will work with you, each step of the way. Together, we will create a budget that fits your wants, needs, desires, and financial situation.
